NodThera Named a 'Fierce 15' Company by Fierce Biotech

Philadelphia, PA, August 5, 2024 - NodThera, a leading clinical-stage biotech delivering a paradigm shift in the treatment of chronic inflammatory diseases through selective modulation of the NLRP3 inflammasome, today announces that it has been named by <u>Fierce Biotech</u> as one of 2024's 'Fierce 15' biotechnology companies, designating it as one of the most innovative and promising biotechnology companies in the industry.

Daniel Swisher, Chief Executive Officer of NodThera, commented: "Over the past year, NodThera has made significant progress towards realizing the full potential of targeting the NLRP3 inflammasome, supported by a proven leadership team, best-in-class molecules and compelling pre-clinical and clinical data. We are incredibly honored to be profiled by Fierce Biotech among the industry's most exciting and innovative companies. With preparations underway for our Phase II clinical development program in cardiovascular disease, obesity, and neuro-inflammation among other value inflection points, this achievement underscores the strength of our science and commitment to leading a paradigm shift in the treatment of chronic inflammatory diseases."

Ayla Ellison, Editor-in-Chief, Fierce Life Sciences and Healthcare, said: "For the past 22 years, we have evaluated hundreds of companies for inclusion in the 'Fierce 15' special report. Our selection process considers various factors, including technological robustness, strategic partnerships, venture support and market positioning. This report highlights innovation and creativity amid intense competition."
