### **About NLRP3**

NLRP3 activation mediates the release of proinflammatory cytokines, including IL-6, IL-18 and IL-1 $\beta$ , driving chronic inflammation in cardiometabolic, neurological and other diseases. NLRP3 Inhibition offers an alternative approach to therapeutic blockade of individual cytokines IL-6, IL-18 or IL-1 $\beta$ .

### **About NodThera**

NodThera, a US and UK based biotech developing best-in-class NLRP3 inhibitors, pioneering a paradigm shift in the treatment of diseases driven by chronic inflammation. NodThera has led the science for a decade; and has built an advanced pipeline of multiple clinical-stage small-molecule NLRP3 inhibitors. Compelling first-in-class clinical data, including in patients with cardiometabolic and neurological diseases, is fuelling rapid clinical development towards multiple approvals.

NodThera is backed by top-tier investors including 5AM Ventures, Blue Owl Capital, Epidarex Capital, F-Prime Capital, Novo Holdings, Sanofi Ventures and Sofinnova Partners.
